

# Project: Riverside Park Trail and Canoe Launch

- Location: Milwaukee, WI
- Our Landscape Project Value: \$12,000
- Construction Time Line: 2011
- Status: Completed

## SCOPE OF WORK:

Overall project scope included installation of a boat ramp, placement of accessible path to proposed canoe launch on the east bank of the Milwaukee River in Riverside Park. The purpose of the path was to create a more user friendly path that will help eliminate the erosion and sedimentation into the River.

Our scope was *Native Prairie and Cover Crop seed mixes* and erosion blanket installation alongside the newly installed trails. We've successfully seeded almost 15,000 SF of area and installed 100 SY of erosion blanket.
